REISSUE APPLICATION DECLARATION BY THE ASSIGNEE

Docket Number (Optional)

At least one error upon which reissue is based is described as follows:

One of the reasons upon which reissue is based is due to the patentee failing to claim subject matter relating to a portable device comprising a housing, a bar code reader, and, a thumb wheel a thumb wheel adapted to facilitate user interaction with the portable device, the thumb wheel including a wheel portion rotatable about an axis, the wheel portion being selectably rotatable about the axis to facilitate a user selecting at least one function from a plurality of functions displayed on the display, and at least a portion of the thumb wheel extending from the housing, the wheel portion being transaxially moveable and wherein transaxial movement of the wheel portion initiates selection of the at least one function as set forth in newly added claim 23. This failure caused the patentee to claim less than he had the right to claim in the patent. This subject matter is shown in Figure 1 and is discussed in the patent, for example, at column 3, lines 37-50 and column 4, lines 42-28.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.
